

COIL Activate Circular Accelerator

We're activating Canada's circular economy.

The Circular Opportunity Innovation Launchpad (COIL) Activate program supports business activities that are informed by circular economy knowledge and practices. The program offers mentorship, education, national and international scaling connections, and funding to fuel innovative, circular projects across southern Ontario.

Building on the learnings and success from the previous cohorts of the COIL Activate accelerator, as well as the COIL Evolve pre-accelerator, Cohort 3 of COIL Activate has been revised and improved. COIL Evolve has been merged into COIL Activate to create a new, more accessible program for circular businesses.

What we offer

Businesses can apply with projects between \$5,000 and \$20,000 that have a focus on food and environment.

Successful companies will take on a circular project over the course of 6 months to further your business' circularity from Nov 1, 2022 to April 30, 2023.

Who we activate

Calling all leaders in the food and environment sectors with a focus on circular transformation!

We're looking for innovative businesses that have what it takes to change the way we do business through circular practices. Have an idea for a circular project? Apply now for COIL Activate until October 18, 2022.

Requirements:

- The business operates within one or more of the following sectors: food and beverage, retail, agriculture, environment, and clean-tech.
- Located within the southern Ontario jurisdiction - see [here](#)
- Demonstrated track record of growth

The 6 month program offers:

- A non-repayable grant from \$5,000 to \$20,000 per company
- An educational program focused on circular practices (approx. \$7200 value) with group discussions
- Up to 24 hours of targeted support and expertise from business leaders (\$3600 value)
- Engagement and networking activities
- Optional 0% financing for 24 months from Harvest Impact
